

Energy Enhancement System

Breakthrough technology that is improving mental, physical and spiritual wellbeing

The Energy Enhancement System (EESystem) combines body, mind, spirit, and science to help you achieve peak performance and reach a higher state of health, consciousness, and self-actualization. There are several bioactive components to the EESystem. This document will explain each component and how the technology enhances your well-being.

THE ENERGY THAT MADE THE BODY HEALS THE BODY...

Dr. Sandra Rose Michael is the inventor of the EESystem. Having taught holistic medicine for more than four decades, Dr. Michael's research in applied integrative biophysics has earned prestigious recognition globally.

The innovative technology, developed over 20 years by Dr. Michael uses custom installed computers to generate morphogenic energy fields that promote healing.

Scalar Field - Torsion Field

How Does Scalar Energy help heal the body?

The Energy Enhancement system does NOT heal you. It is important to understand that your body has all the tools to heal itself. This is a common misperception. The key to healing is your environment. If you are in a coherent environment your health will optimize. The EESystem creates this environment through scalar wave technology.

The environment you are in - you will sync to

SCALAR ENERGY - Torsion Field

When you are in a scalar field environment your body has the ability to heal in several ways.

- Reduce pain and inflammation
- Improve circulation
- Boost immune function
- Speed healing process
- Enhance Sleep Quality
- Reduce stress and anxiety
- Increase cellular regeneration

Schumans Resonates

What is Schuman's Resonates and how does it help up?

Schumans Resonates is incorporated into the computer monitors and is the electromagnetic frequency of the earth (7.83 Hertz).

This frequency is similar to the alpha brainwave frequency of humans and is associated with relaxed mental states.

Often referred to as grounding or earthing

Grounding

This frequency is often referred to as grounding by placing your feet directly on the ground outside, we begin to adapt to the frequency (earth's heartbeat) of the Earth.

Fibonacci Sequence

What is it, and how can it help our wellbeing?

The Fibonacci Sequence is a series of numbers and ratios that manifest across various aspects of life. The Fibonacci Sequence appears on the computer screens - ascending and descending in a specific pattern and time.

■ Fibonacci Sequence communicates with the body - contributing to your body's healing process

Benefits

This sequence and its pattern play a role in activating and mobilizing the body's stem cells, contributing to the body's healing process.

Photonic Collision

Why Charging our cells can optimize our health

Collision of light. The collision of light occurs when the computer screens emit precisely aligned photons that converge in the middle of the room, resulting in an implosion of light. This implosion generates a charge ranging from 70 to 90 millivolts within the space

Low electrical charge can lead to sickness. 70-90 charge signifies optimal health

Cellular Charge

Every cell in your body carries an electrical charge. The level of millivolts determines whether your body harbors an unhealthy or healthy environment. A low electrical charge, 20 millivolts or below, can lead to sickness, resulting in conditions like cancer, heart disease, depression, and anxiety. On the other hand, a cellular charge of 70 to 90 millivolts signifies optimal health, creating a healthy body environment.

The natural state of our body is health

Color Therapy

How is color a healing modality?

Color can be used as a healing modality. The difference between each color as we see it is the frequency/vibration.

Chakra System

The seven energy centers within the body. In Western medicine, the solar plexus corresponds to the digestive system, and your heart chakra to the cardiovascular system. Long ago, it was recognized that each organ operates at an ideal frequency, which aligns with a specific color frequency. For instance, the digestive system functions optimally at the yellow frequency, indicating that yellow foods promote digestive health, while green foods support cardiovascular health.

■ The primary function of DNA is to store light, which is then distributed to the body's proper parts.

The monitors transmit the light allowing your DNA to communicate with the light and distribute the light to where it belongs depending on its frequency.

You have all the tools within your body to heal

A Holistic Approach to Optimal Health

Instead of asking yourself
How can I fight this disease?

Ask yourself
How can I change my environment?

Each Session is 2 hours long. Relax in the healing environment of the EESystem.

Most change begins between 8-10 hours
